FLAT Customer

A customer can now be defined as a FLAT Customer and charged with the defined Storage Flat Base Rate defined on the Custom Rate level.

Import FLAT Customers

A new optional column is added on the Customers Import defined as *Flat Customer* which accepts YES/NO values. Both the Customers Import Template and the Instructions are updated

Items for a FLAT Customer

When adding/editing an item for Flat Customer, the Storage Base Rate is disabled and defined with the one from the customer level.

The HIN/HOUT base rate drop-downs are enabled and contain all the HIN/HOUT base rates defined in Administration with the different Bill Types.

Custom Rates for FLAT Customer

In order to charge a FLAT Customer, a Custom Storage Flat Rate needs to be defined on the Customer level.

Minimum Amount is defaulted to \$ 0.00.

The charge will be visible on the invoice.

MSWhse – Customers Import Layout

| | | |
|--|-------------|---|
| | | a Storage Base Rate and optionally the Handling In Base Rate and Handling Out Base Rate values. If you enter "No" the customer will be set up as a regular customer. |
| Flat Customer | No | Do you wish to have this customer on a Flat Customer basis? Enter "Yes" to consider this customer on a Flat Customer basis. Setting this column to "Yes" requires that you also set a Storage Base Rate. If you enter "No" the customer will be set up as a regular customer. A Customer cannot be set both as Flat and Customer Weight per Transaction. |
| If Customer Weight per Transaction is "Yes", then provide data in one or more of the following fields. If Flat Customer is "Yes", then provide data in the Storage Base Rate field. | | |
| Storage Base Rate | Conditional | Provide the Customer Weight per Transaction (CWT) rate. This setting is required if the Customer Weight per Transaction is "Yes." |
| Handling In Base Rate | Conditional | Provide the base rate for Handling In record types. This setting is optional if the Customer Weight per Transaction is "Yes." |
| Handling Out Base Rate | Conditional | Provide the base rate for Handling Out record types. This setting is optional if the Customer Weight per Transaction is "Yes." |

Worker Users access to Report Module

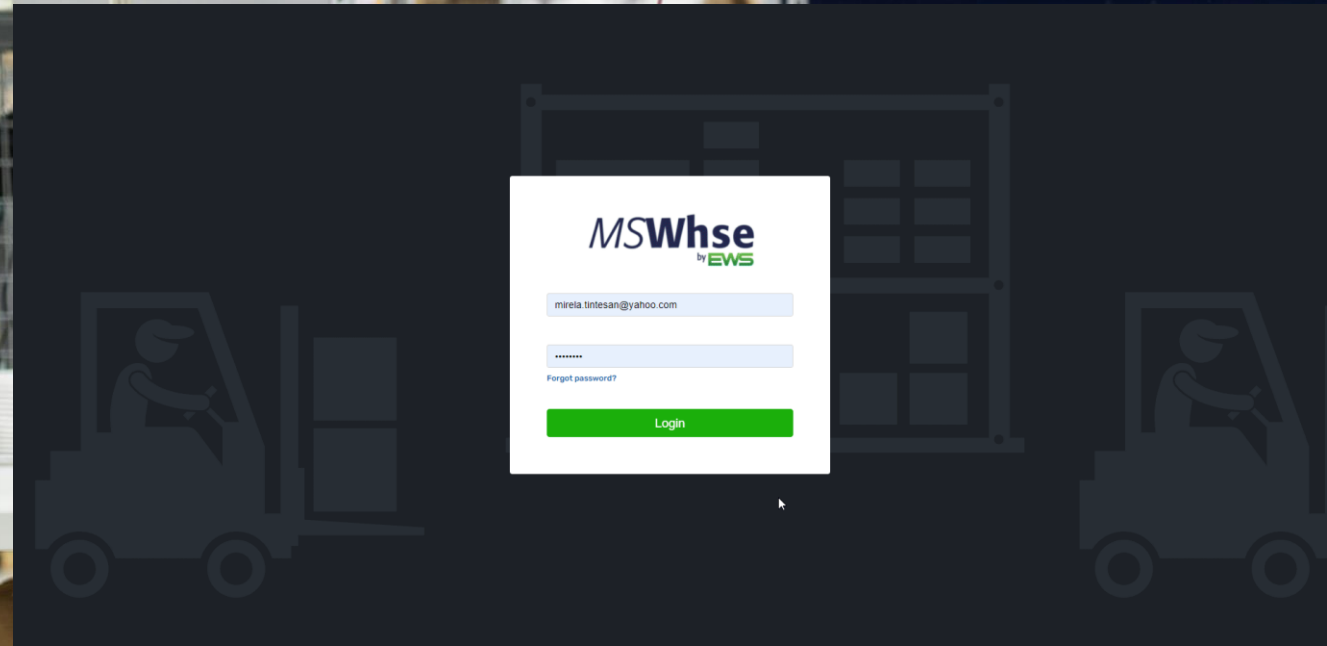

The workers users all now have access to the Reports Module which contains the following:

- Transactions Report
- Inventory Report
- FIFO Inventory Report
- Inventory Report by Location
- Expected Quantity Report

Transactions Report: Data on the Export to Excel

The exported spreadsheet contains the following new data:

- Item SKU
- Inventory Number from the Transactions Level
- Serial Number from the Transactions Level

| G | H | I | J | K |

Delivery Ticket: Item Weight

- Item Weight is a new field on the Delivery Ticket
- Item Weight value is the result from the Transaction Item Qty * CWT/UOM

Enhancements on Location Sheet

- The Vault Location sheet generated from Inbound and Outbound transactions now contains the list of inventory available on the selected Vault.
- For what it is more, all the Location sheets now contain the Customer Reference instead of the Transaction Reference.

Delete Location ×

Are you sure you want to delete these 3 locations?

No, go back

Yes, delete it

Delete Vaults and Locations from a Warehouse

- Administrator users will have the ability to delete a/multiple selected empty locations and vaults from the Warehouse level.
- Locations/Vaults that are in use cannot be deleted, as an error message will be displayed on the user interface if the Admin user selects it.

Save Inbound Transaction

Are you sure you want to save this transaction? An item is not added and saving the transaction implies that the item will not be included in it. Please select Add Item to add item to the transaction.

No, go back

Yes, save it

Leave Inbound Transaction

Your changes weren't saved. Are you sure you want to leave the Inbound Transaction?

No, go back

Yes, leave

Confirmation Messages

- If minimum one modification was done on an Inbound/Outbound Transaction and the user attempts to leave the page by selecting a different option from the menu, clicking on the breadcrumb or use the < > options from the browser, a confirmation message pops up.
- If an Item No is selected in an Inbound/Outbound Transaction and the user hits SAVE without hitting Add Item, a confirmation message is displayed to draw the user's attention.

New Rate
